MADE IN AMERICA

**NATIONWIDE
DISTRIBUTION
CENTERS**

THE INDUSTRY'S LARGEST INVENTORY

- Six fully-stocked regional distribution centers.
- Over 4,000 different SKUs to choose from in stock.
- Large inventory covers of best solvers.

ALL LOCKERS & CABINETS ARE AVAILABLE TO SHIP KNOCK DOWN OR FULLY-ASSEMBLED

- Lockers and cabinets are assembled by trained and highly skilled trade professionals.
- Lockers and cabinets arrive ready to anchor, saving you time and money.

OUR STEEL

- Most of our steel is purchased directly from US mills and is made of 30% post consumer recycled content and 11.3% post industrial/pre-consumer content.

OUR PAINT

- Sherwin Williams powders are made in the USA insuring no harmful materials.
- Hammertone textured finishes are available for all 24 standard colors.
- Medsafe® antimicrobial finishes with Microban® are available for all 24 colors.

WE ARE GREENGUARD GOLD CERTIFIED

- Hallowell is committed to producing environmentally friendly products and protecting indoor air quality.
- GREENGUARD Gold Certification establishes strict chemical emission standards for products intended for use in environments where children and others work, play or reside.
- All metal products are GREENGUARD GOLD certified.

INDUSTRY-LEADING CUSTOMER SERVICE

- A dedicated team of in-house trained professionals is ready to respond to inquiries related to product features, availability, specifications, order status and shipping information.
- All personnel are trained in every aspect of our Quick Ship program.

Since 1903, every Hallowell component has been designed and manufactured with the concept that the highest quality product is crucial for success.

OUR HISTORY

Hallowell was acquired by List Industries Inc. in 1992. List Industries was founded in 1936 with the idea that customer satisfaction and product quality would be the basis for success. This philosophy has been maintained for over 80 years by the three Presidents of List Industries Inc.: founder Max H. List, his son Herb List and his grandson and current President, Herb List, Jr. As an innovator and industry leader in product design and development, List Industries Inc. has and will continue to uphold Hallowell's tradition of quality and exceptional customer service.

MANUFACTURING

Hallowell Products are fabricated in three state-of-the-art manufacturing facilities located in Central and South Florida. Our Deerfield Beach corporate headquarters is a highly efficient manufacturing plant located in one of South Florida's premier office parks. Computer controlled fabrication, roll-forming equipment and the newest powder coating paint technology assure consistent quality workmanship. In addition to our primary manufacturing facility, we also have a second plant in a prestigious industrial park in Central Florida that more than doubles our manufacturing square footage. Our newest Florida location, produces our new line of all-wood Recruiter sport lockers and wardrobe Club lockers.

MADE-TO-ORDER PRODUCTS

In addition to Hallowell's industry leading variety of in-stock lockers, shelving and cabinets, we also offer an extensive line of production items. Hallowell's complete line of production lockers can be manufactured in short lead-times and painted in one of our standard designer powder coat colors. If a high-rise shelving system is what you require, our team of design engineers and sales professionals is eager to assist you.

THE FASTEST SHIPPING WITH THE MOST SECURE PACKAGING

In an industry where damage in transit can be difficult to prevent, Hallowell goes the extra mile to ensure your purchase is protected by providing the industry's best packaging materials and techniques.

1. Pallet is sized to fit unit with no overhang and with bottom protection

2. Full height corner guards and Top cap are added.

3. Outside faces are protected.

4. Extra packing is added to protect handles when projecting and the units are wrapped with poly wrap and double strapped in two directions to ensure stability.

KNOCK-DOWN SHIPMENTS

- All components are packaged in custom designed corrugated cartons.
- Pallets are sized so that no material overhangs the pallet.
- All cartons are securely strapped to pallets.

FULLY-ASSEMBLED SHIPMENTS

- Pallets are sized so that no part of a unit overhangs the pallet.
- When two units share a pallet, the inward facing locker fronts are separated by corrugated spacers.
- Locker tops and bottoms are protected by specially designed capping cartons.
- Outside corners are protected with heavy-duty full height corner guards.
- Perimeter surfaces are protected with full height corrugated sheets.
- Locker fronts always face the center of a pallet when possible.
- Units are wrapped with Heavy-gauge clear poly wrap.
- Units are double strapped in two directions to ensure maximum stability.

INDUSTRY'S BEST PACKAGING

RIVETWELL™

Boltless shelving is designed to maximize storage space and minimize installation set-up time.

All components are engineered to attach snugly to one another without the use of loose fasteners. This unique design has rivets which are factory attached to all left-to-right and front-to-back beams. The rivets align with keyhole slots in the vertical posts. Once tapped into place using a standard rubber mallet, the units are tightly assembled to provide maximum strength.

Standard units consist of vertical angle posts at the corners, double rivet angle beams at the top and bottom perimeter and single rivet angle beams running left-to-right only at the intermediate levels. Shelves are of standard 5/8" particle board, EZ-Deck steel or wire decking and simply drop into place. Shelf strength can be increased by upgrading to heavy duty beams, adding single rivet beams running front-to-back at the intermediate levels, upgrading to double rivet beams at the full perimeter of the intermediate levels or upgrading all levels to our strongest double rivet channel beams. Optional center supports can be added using supplied hardware to increase decking capacity.

The versatility of our Rivetwell boltless shelving system allows you to mix and match components to meet your unique application. From standard storage applications, and record storage to automotive tire racks, Rivetwell boltless shelving is your storage solution.

1 Angle Post

2 T-Post

3 Single Rivet Shelf Beam

4 Double Rivet Angle Beam

5 Double Rivet Channel Beam

6 Center Support

7 Double Rivet Z-Beam (Standard Duty)

8 Double Rivet Z-Beam (Heavy Duty)

9 Z-Beam Center Support

1 Angle Post (Standard Duty): 1-1/2" x 1-1/2" x 14 gauge cold rolled steel corner post uprights. Perfect for standard load situations.

Angle Post (Heavy Duty): 1-7/8" x 1-7/8" x 14 gauge cold rolled steel uprights. The choice when heavy duty shelving is required. Perfect for multilevel installations.

2 T-Post (Standard Duty): 3" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

T-Post (Heavy Duty): 3-3/4" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

3 Single Rivet Shelf Beam (Standard Duty): This 14 gauge low profile standard intermediate level shelf beam is perfect when maximum clear opening is required between shelf levels.

Single Rivet Shelf Beam (Heavy Duty): An 11 gauge heavy duty version of our low profile intermediate shelf beam allowing maximum clear opening between shelf levels.

4 Double Rivet Angle Beam (Standard Duty): This 16 gauge shelf beam is essential for stability of standard units; therefore, is used on all four sides at the top and bottom levels. Can also be used front and back or on all four sides of intermediate levels to increase unit stability and load capacity.

Double Rivet Angle Beam (Heavy Duty): An upgrade to our standard duty double rivet angle beams, our heavy duty double rivet angle beams provide additional unit rigidity and even higher shelf capacity.

5 Double Rivet Channel Beam: Maximized left-to-right shelf capacity is achieved using our 14 gauge double rivet channel beams in lieu of double rivet angle beams. These beams cannot be used at the bottom level.

6 Center Support: Used to provide additional shelf support front-to-back by bolting between double rivet beams at pre-punched locations. Ideal for wider spans.

7 Double Rivet Z-Beam (Standard Duty): For 12" thru 60" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. When used at bottom level of single rivet units, shelf clearance is increased by 1" at lower level. Standard Z beams are 14 gauge.

8 Double Rivet Z-Beam (Heavy Duty): For 69" and 72" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. Heavy-Duty Z beams are 14 gauge

9 Center Support for Z-Beam: Used with Z-Beams for front to back decking support. Fabricated of 11 gauge cold rolled steel.

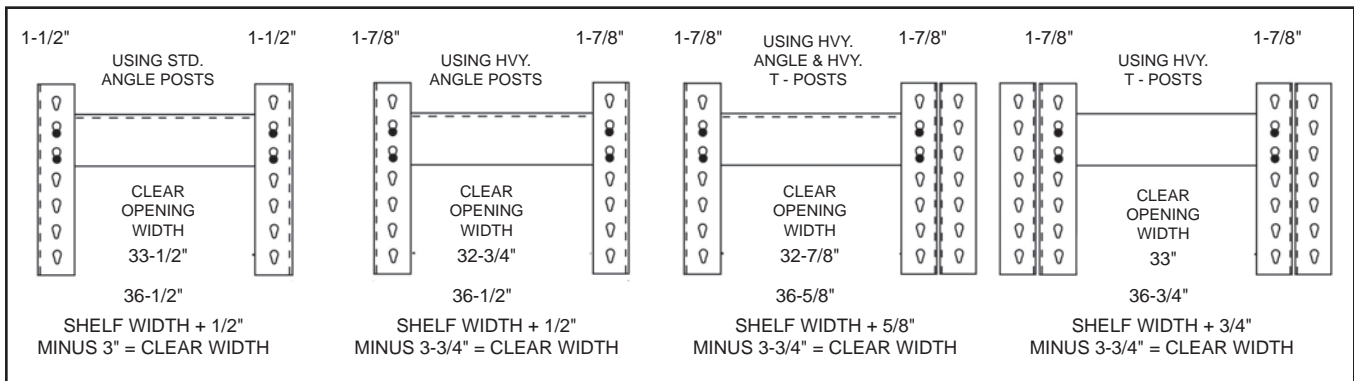

UNIT GROWTH CHART

When designing a shelving layout, unit growth must be considered. To determine the overall dimension of a continuous row of shelving employing T-Posts or Angle Posts with tie plates, refer to the table below.

Unit Clear Width

Examples below are based on 36" wide shelf.

Vertical Shelf Clearance for Single Rivet Units

This chart depicts shelf clearances for typical rivetwell shelving units with 1-1/2" vertical shelf adjustment

Vertical Shelf Clearance for Double Rivet units

RIVETWELL™ SHELVING

Starter units consist of four standard angle posts, four left-to-right standard double rivet angle beams, four front-to-back standard double rivet angle beams, two left-to-right standard single rivet beams per intermediate level and two front-to-back standard single rivet beam at one intermediate level only (30" and 36" deep units include two front-to-back single rivet beams at each intermediate level).

Adder units consist of two standard T-Posts, four left-to-right standard double rivet angle beams, two front-to-back standard double rivet angle beam, two left-to-right standard single rivet beam per intermediate level and one front-to-back standard single rivet beam at one intermediate level only (30" and 36" deep units include one front-to-back single rivet beam at each intermediate level).

Be sure to order one each of Wire or Particle board decking per level.

See page 15-16 for decking options (sold separately)
EZ-Deck steel decking can NOT be used on single rivet units.

Standard 5-shelf single rivet starter unit
(order decking separately)

NOTE: The above load chart refers to the deck materials only. Particle board decking is 5/8" industrial grade type 1-M-2. EZ-Deck steel decking is 22 gauge galvanized sheet steel fabricated in 6" deep channel planks (models listed above include multiple planks to meet unit depth). 15" deep Ez-Deck will be shipped in two (2) 7 1/2" deep planks. The allowable shelf load capacity may be reduced due to allowable post and / or beam capacities. Specific deflection limits may also reduce the shelf load capacity. NOTE: EZ-Deck must be center supported on units 48" wide and wider.

Particle Board Decking

EZ-Deck Steel Decking

NOTE: EZ-Deck steel decking is for use with double rivet units ONLY.

POST CAPACITY CHART

Recommended safe loads (per post) for use only where seismic forces are not a factor

BEAM SPACING	STANDARD/HEAVY-DUTY T-POST CAPACITY
12"	5045
18"	4965
24"	4850
30"	4705
36"	4525
42"	4315
48"	4075

Calculate needed post capacity by multiplying the number of shelves by the per shelf load then divide by 4 (Angle posts), or by 2 (T-Posts) then refer to the chart below for the approximate post quantity needed to meet your job requirement.

Post capacities are based on the maximum vertical distance between left-to-right beams or front-to-back beams, whichever is greater. In single rivet beam units, the vertical distance between front-to-back beams will usually govern. Tie plates must be spaced no more than 48 inches apart to ensure structural stability when joining angle post together. All units require tie plates at top and bottom.

The above capacities are not intended for use when designing multi-level systems or for specific requirements where seismic forces are a factor. For specific multi-level or seismic requirements contact your Hallowell Sales Manager.

	69	600	-	1000	-
	72	600	-	1000	-

DESIGN CRITERIA:

All units must have a full perimeter of double rivet beams at the top and bottom to ensure a stable and rigid unit. All units using single rivet beams 10'0" to 18'0" in height, require an additional double rivet perimeter beam level located approximately in the middle of the unit.

All single rivet beam units must have one (1) intermediate pair of front to back beams for 7'0" and 8'0" high units and (2) intermediate pair of front to back beams for 9'0" high units. For 10'0" to 18'0" high units refer to the above paragraph.

DO NOT exceed 48" between front to back beams. Single Rivet and Double Rivet Front-to-Back Beams may be common when using T-Posts on units up to 8' high.

All intermediate single rivet levels over 24 inches deep must also have single rivet beams supporting the particle board front to back.

All double rivet beam units must have front to back beams at each shelf level.

(*) One (1) support per pair of beams except 96" which have two (2) supports

(**) Refer to shelf load capacities for beam capacities when depth is 30", 36", and 48"

(***) Beam rotation is less than 5 degrees

✓ High Shelf Capacity ✓ No Cross Braces ✓ 360° Access

RIVETWELL™

HIGH CAPACITY BOLTLESS SHELVING

FEATURES:

- Shelves adjust in 1-1/2" increments
- 5 shelf levels
- Easy assembly
- Holds up to 2,300 lb. per shelf (Based on evenly distributed loads)
- Black powder coat finish
- Levels are center supported for increased capacity

FEATURES:

Angle Post: 1-1/2" x 1-1/2" x 14 gauge cold rolled steel corner post uprights.

Double Rivet Angle Beam (36" in length): 2-3/4" x 1" x 16 gauge cold rolled steel.

Double Rivet Angle Beam (48" long and greater): 2-3/4" x 1" x 14 gauge cold rolled steel. An upgrade to our standard duty double rivet angle beams, our heavy duty double rivet angle beams provide additional unit rigidity and even higher shelf capacity.

Center Support: 2-3/4" x 1" x 1" x 16 gauge cold rolled steel. Used to provide additional shelf support front-to-back by bolting between double rivet beams at pre-punched locations.

Steel Decking: 14 gauge cold rolled sheet steel with flange formed at front and back designed to overhang left to right beams at front and back.

HIGH CAPACITY SHELVING

HIGH CAPACITY BOLTED DIE RACK SHELVING

✓ High Shelf Capacity ✓ No Cross Braces ✓ 360° Access

HIGH CAPACITY DIE RACK

FEATURES:

- Shelves adjust in 1" increments
- 5 shelf levels
- Nut and bolt assembly
- Holds up to 2,800 lb. per shelf (Based on evenly distributed loads)
- Dark Gray powder coat finish
- Shelves are reinforced to prevent deflection under heavy loading

HIGH CAPACITY DIE RACK SHELVING

FEATURES:

Angle Post: Are 13 gauge cold rolled steel 2" x 2" corner post uprights punched on 1" centers for adjusting shelves

High Capacity Shelves: Are 14 gauge cold rolled steel and double flanged at all four sides. All four corners are punched to allow shelves to be securely bolted to angle posts. Minimum four nuts and bolts per corner.

Shelf Stiffener: An 18 gauge hat channel shape stiffener is welded to the underside of the shelf running left to right increasing capacity and preventing deflection under heavy loading.

High Capacity Reinforced Bolted Shelving

DARK GRAY (HG)

BOX FORMED SHELVES

- Tubular welded box beam front and rear for maximum strength
- Exclusive triple bend side flanges for added strength
- Lapped and welded corners
- Top of shelf is punched to accept shelf dividers

ANGLE BACK POSTS & T-POSTS

- Roll formed into a unique angle shape for maximum strength
- The long leg is punched on 1-1/2" centers to allow independent shelf adjustment
- Angle Posts can be used in place of Beaded Front Posts if desired

BEADED FRONT POSTS

- Beaded for strength
- Flush to permit straight-in/straight-out shelf installation, shelf changing and full use of shelf width
- Punched on 1-1/2" centers to allow independent shelf adjustment

H-POSTS

- Designed for high-density applications
- More than twice the capacity of standard posts
- Used at front and back
- Used with standard Hi-Tech components

ONE PIECE SHELF CLIP

- Four sturdy and compact clips per shelf
- Keys firmly into post slots to hold shelves securely in place
- Fits Beaded Front, Angle Back Posts and T-Posts
- Non-Intrusive clip sits flush with inside edge of front posts

H-POST

HEAVY-DUTY INDUSTRIAL DEEP BIN SHELVING UNITS FEATURE:

- H-Post
- Heavy-duty Hi-Tech box formed shelves
- Vertical dividers bolt in for added strength & durability
- 3/4" Plywood back painted Marine Blue [MB] to absorb impact
- Horizontal stabilizer beams prevent sway creating rigid frame.
- 18 gauge side panels
- All Units 36" wide by 87" high

Ideal for storing long items such as tubing, re-bar, florescent lights, hinges, etc.

H-POST

HALLOWELL High Capacity Shelving

PROVIDES TWICE THE CAPACITY OF STANDARD POST SHELVING

H-Post High capacity Shelving is ideal when additional strength is required for any shelving installation. It is also recommended for multi-level high-rise applications.

H-Posts are fabricated from 14 gauge cold rolled steel and formed into a unique tubular design to provide more than twice the load capacity compared to standard posts.

MARINE BLUE (MB)

COMBINE WITH STANDARD HI-TECH SHELVING COMPONENTS

H-POST

- Designed for high-density applications
- More than twice the capacity of standard posts
- Used at front and back
- Used with standard Hi-Tech components

BOX FORMED SHELVES

- Tubular welded box beam front and rear for maximum strength
- Exclusive triple bend side flanges for added strength
- Lapped and welded corners
- Top of shelf is punched to accept shelf dividers

ONE PIECE SHELF CLIP

- Each shelf requires four of these sturdy and compact clips
- Clips key firmly into post slots to hold shelves securely in place
- Also fits Beaded Front, Angle Back Posts and T-Posts
- Provides independent shelf positioning on 1-1/2" centers
- Non-Intrusive clip sits flush with inside edge of front posts

BACK AND SIDE SWAY BRACES

- Standard for open units only
- 11 gauge back and side sway braces create a rigid structure
- Special triple point brace clip provides a strong rigid anchor point for back sway braces

BACK AND SIDE PANELS

- Standard for closed units only
- Standard stock models include heavy 18 gauge back and side panels for a strong and durable structure
- Multiple panels are used to create full panel height

FOOT PLATES

- Standard stock units include #5025 standard duty foot plates
- Provide a strong and secure anchoring point

NO CROSS BRACES

DURATECH™

PASS-THRU STEEL SHELVING

DuraTech is Hallowell's newest line of pass-thru steel shelving requiring no cross braces allowing access from all sides while providing the maximum strength, durability and stability needed to handle most industrial applications. DuraTech offers versatility and durability for today's modern facilities.

Our complete line of shelving is designed and engineered to the highest standards.

No Cross Braces **360° Access**

A MORE EFFICIENT STORAGE SYSTEM!

- Access from all 4 sides
- Top and bottom firmly attached with steel-grip nuts for superior strength
- Available in 5, 7 and 8 shelf models
- Four Angle Posts are used per section allowing units to be individually located, bolted side-by-side or bolted back-to-back.
- Each intermediate shelf uses four sturdy and compact clips
- Clips key firmly into post slots to hold shelves securely in place
- Provides independent positioning of intermediate shelves on 1-1/2" centers
- Bottom shelf is positioned to prevent debris from collecting beneath unit

**OUR UNIQUE GRIP NUT DESIGN
CREATES A VERY STRONG AND
RIGID STRUCTURE**

DURATECH™ PASS-THRU SHELVING

Hallowell
Hallowell-List.com

Top and bottom shelves attach with bolts at each corner providing a strong and rigid structure

Bottom shelf is positioned to prevent debris from collecting beneath unit

Top and bottom shelves are triple flanged at all four sides and bolted to angle posts at all four corners for maximum rigidity, durability and stability.

Angle posts are roll formed into a unique angle shape for maximum strength. Leg is punched on 1-1/2" centers to allow independent intermediate shelf adjustment

Intermediate shelves have a tubular flange at the front and rear, and exclusive triple bend sides for added strength.

Compression Shelf Clip for intermediate shelves

Fully Adjustable Intermediate Shelves with fixed top and bottom for a strong unit that DOES NOT require CROSS Braces

COMPONENT SPECIFICATIONS

Beaded Front Posts:

Fabricated from 14 gauge cold rolled steel and roll formed into an 11/16" wide x 2-9/16" deep tubular section. Rear flanges are welded on 6" centers to provide maximum strength. Sides of the post are punched 1-1/2" on center with 3/8" x 7/8" rectangular slots to receive shelf clip. Rear flanges of the post have holes punched on 3" centers for the attachment of side sway braces or field attached solid side panels. Provide (1) Beaded Front Post between each adjoining section and at row ends.

Angle Back Posts:

Fabricated of 14 gauge cold rolled steel and roll formed into a modified unequal angle shape. The long leg shall have holes punched on 1-1/2" centers with 3/8" x 7/8" rectangular slots to receive shelf clip. The leading edge shall have holes punched on 3" centers for the attachment of side sway braces. The short leg shall have holes punched on 3" centers for the attachment of back sway braces or back panels. Provide (1) Angle Back Post at each row end for open-type shelving applications.

T-Posts:

Shall be fabricated of two angle back posts. The posts are welded together back-to-back to form a "T". Welds are on 6" centers for maximum strength. Posts are used for intermediate back post applications. Provide (1) T Post between each adjoining section for open-type shelving applications.

Post Splice Channels:

(For Beaded Front Posts, Angle Posts, and T-Posts) Fabricated from 16 gauge cold rolled steel and formed into a 11/32" x 1-1/8" x 11/32" channel. 1-1/8" flange is punched with four holes for assembling to upper and lower posts. Provide at all post splices when additional height is required.

H-Posts:

Fabricated from 14 gauge cold rolled steel and roll formed into an 1-1/2" wide x 2-15/16" deep tubular section. Rear flanges are welded on 6" centers to provide maximum strength. Sides of the post are punched 1-1/2" on center with 3/8" x 7/8" rectangular slots to receive shelf clip. Rear flanges of the post have holes punched on 3" centers for the attachment of side sway braces or field attached solid side panels. Post front is slotted on 3" centers for beam connection and combination clip attachment and is punched on 3" centers for field attached back connector strips. Provide (2) H-Posts between each adjoining section and at row ends.

H-Post Splice:

Fabricated from two pieces of 16 gauge cold rolled steel formed into two special channel shapes that are spot welded together to form a 9-3/4" long connector. Splice inserts into post and include 6 holes for bolting to posts.

Side Sway Braces:

1" x 11 gauge cold rolled steel strip with safety edges to eliminate sharpness. The center of two identical pieces shall be punched to be bolted together forming an "X". Ends shall be rounded and punched for attaching to front and back posts. Provide between adjoining sections and at row ends for open-type shelving applications.

Back Sway Braces:

1" x 11 gauge cold rolled steel strip with safety edges to eliminate sharpness. The center of two identical pieces shall be punched to be bolted together forming an "X". Ends shall be rounded and punched for attaching to two back posts. Provide at back of all open-type shelving applications.

Back Panels:

Fabricated from 24 gauge cold rolled sheet steel. The two outer edges and the center shall be punched with 5/16" diameter holes on 1" centers running vertically for assembling to back posts. The center row is used to attach to rear of shelf using Back Clips. Provide at back of closed-type shelving sections. For heights greater than 3'-3", multiple sections will be provided to achieve height.

**Red Part Number Denotes Stock Component
Quick-Ship Color Availability As Noted For
Each Component**

Side Panels:

Fabricated from 24 gauge cold rolled sheet steel, field bolted to front and back posts. Provide at all side locations for closed shelving sections. For heights greater than 3'-3", multiple sections will be provided to achieve height.

End Panels:

Fabricated from 24 gauge cold rolled sheet steel, factory bolted to a Beaded Front Post and an Angle Back Post. Provide at row ends of closed-type shelving applications or where closed ends are desired on open-type shelving applications. For heights greater than 3'-3", multiple sections will be provided to achieve height.

T-Panels:

Fabricated from 24 gauge cold rolled sheet steel factory bolted to a Beaded Front Post and two angle back Posts. Provide between sections of closed-type shelving applications. For heights greater than 3'-3", multiple sections will be provided to achieve height.

Hi-Tech Foot Plate for Beaded, Angle and T-posts #5050

3-1/2" x 2-1/4" x 12 gauge steel plate with angle bracket welded on top. The angle bracket is punched for fastening to front and back posts. The plate shall have a 7/16" diameter hole punched on one end for floor anchoring and a 3/8" diameter hole on the other end for shim plate alignment. Provide as required for floor anchoring or when shimming is required for a level installation

Hi-Tech/H-Post Foot Plate Shim Medium/Light Duty #5026

3-1/2" x 2-1/4" x 16 gauge cold rolled sheet steel. Fabricated to fit under the foot plate. One end is embossed to fit into the embossment hole in the foot plate to keep them properly aligned. The other end shall have a 7/16" diameter hole to allow floor anchoring. Provide as required when shimming is required for a level installation.

Hi-Tech Foot Plate Extra Heavy Duty #5032

5-1/2" x 2-3/8" x 7 gauge steel plate with angle bracket welded on top. The angle bracket is punched for fastening to front and back posts. The plate shall have a 7/16" diameter hole punched in both ends for floor anchoring. Provide as required for floor anchoring or when shimming is required for a level installation.

Hi-Tech Foot Plate Shim Extra Heavy Duty #5033

5-1/2" x 2-3/8" x 16 gauge cold rolled sheet steel. Fabricated to fit under the Foot Plate. One end is embossed to fit into the embossment in the Foot Plate to keep them properly aligned. The other end shall have a 7/16" diameter hole to allow floor anchoring. Provide as required when shimming is required for a level installation.

H-Post Foot Plates Medium/Light Duty #5025

3-1/2" x 2-1/4" x 11 gauge steel plate with U-bracket welded on top. The bracket is punched for fastening to H- posts. The plate shall have a 7/16" diameter hole punched on one end for floor anchoring and a 3/8" diameter hole on the other end for shim plate alignment. Provide as required for floor anchoring or when shimming is required for a level installation.

H-Post Foot Plate Heavy Duty #5015

4" x 3-1/2" x 3/8" steel plate with U-bracket welded on top. The bracket is punched for fastening to H- posts. The plate shall have 7/16" diameter holes punched for floor. Provide as required for floor anchoring or when shimming is required for a level installation.

Heavy Duty H-Post Foot Plate Shim #5016

4" x 3-1/2" x 16 gauge cold rolled sheet steel. Fabricated to fit under the foot plate. Shall have a 7/16" diameter holes to allow floor anchoring and one emboss for alignment. Provide as required when shimming is required for a level installation.

Shelves - Medium Duty:

Formed with two ribs along the horizontal front and rear edge and are stamped on the top left corner for identification. Class 0 shelves are fabricated from cold rolled steel and have roll formed rectangular tubular shaped front and rear edges with return bends resistance welded to the under side of shelf. Welds are spaced 3" on center to provide maximum strength. Sides are triple flanged to form a channel. All four corners are lapped and resistance welded to provide a rigid corner and add extra strength to the shelf. Top surface shall be punched for attaching Shelf Dividers From left to right on 1-1/2" centers, front and back, for 36" wide x 12", 15", 18" and 24" deep shelves. All other sizes are punched on 3" centers. Front and rear surfaces are punched for attaching accessories. Tubular front edge is designed to protect against impact loads. Used for uniformly distributed loads up to 500 pounds.

Shelves - Heavy Duty:

Formed with two ribs along the horizontal front and rear edge and are stamped on the top left corner for identification. Class 1 shelves are fabricated from heavy gauge cold rolled steel and have roll formed rectangular tubular shaped front and rear edges with return bends resistance welded to the under side of shelf. Welds are spaced 3" on center to provide maximum strength. Sides are triple flanged to form a channel. All four corners are lapped and resistance welded to provide a rigid corner and add extra strength to the shelf. Top surface shall be punched for attaching Shelf Dividers from left to right on 1-1/2" centers, front and back, for 36" wide x 12", 15", 18" and 24" deep shelves. All other sizes are punched on 3" centers. Front and rear surfaces are punched for attaching accessories. Tubular front edge is designed to protect against impact loads. Used for uniformly distributed loads up to 800 pounds.

Shelves - Extra Heavy Duty:

Formed with two ribs along the horizontal front and rear edge and are stamped on the top left corner for identification. Class 2 shelves are fabricated from extra heavy gauge cold rolled steel and have roll formed rectangular tubular shaped front and rear edges with return bends resistance welded to the under side of shelf. Welds are spaced 3" on center to provide maximum strength. Sides are triple flanged to form a channel. All four corners are lapped and resistance welded to provide a rigid corner and add extra strength to the shelf. Top surface shall be punched for attaching Shelf Dividers from left to right on 1-1/2" centers, front and back, for 36" wide x 12", 15", 18" and 24" deep shelves. All other sizes are punched on 3" centers. Front and rear surfaces are punched for attaching accessories. Tubular front edge is designed to protect against impact loads. Used for uniformly distributed loads up to 1,200 pounds.

Shelf Clips:

Shall be a one piece compression clip drawn from 13 gauge cold rolled steel and zinc plated. Fits snugly against side of post to hold shelves in place. Provide four per shelf.

Base Strip:

Made from 22 gauge cold rolled steel offset at top to fit behind the front flange of shelf. Punched for bolting to holes in the front flange of shelf. Bottom is flanged to resist bending.

Label Holders:

Made from 22 gauge cold rolled steel. Punched on ends and center for attaching to the front edge of shelves with top and bottom edges folded over to accommodate labels approximately 1" high.

Bin Fronts:

Fabricated from 18 gauge cold rolled steel. The top edge is formed into a bead. The bottom shall be triple flanged to telescope over shelf flange and punched to provide a means of attaching to shelf.

Full Dividers:

Fabricated from 24 gauge cold rolled steel. The front edge is beaded. Top and bottom shall be flanged and punched to provide a means of attaching to shelves. The back edge is flanged to provide rigidity. Dividers are installed using snap-in nylon fasteners.

Partial Dividers:

Fabricated from 22 gauge cold rolled steel. The top corners are rounded for increased safety. The bottom flange is punched to provide a means of attaching to shelf. Dividers are installed using snap-in nylon fasteners.

Swinging Doors:

Fabricated from 20 gauge cold rolled steel with box flanges on all four edges. Swinging doors shall be reinforced with a steel pan type panel inside the door. Doors are bolted to a welded door frame consisting of top and bottom channels and angles at the sides. The door frame side angles are punched on 1" centers for attachment. Universal Clips shall be supplied to attach door & frame assembly to the Beaded Front Posts. One chrome finished turn handle with built-in cylinder key lock shall be included providing three point positive locking.

Universal Clip:

Fabricated from 16 gauge cold rolled steel formed into an angle with three slotted holes on one flange and one long slot in the other flange, which is also offset to fit in Beaded Front Post. Provide when Swinging Doors are required.

MULTI-LEVEL HIGH-RISE SHELVING SYSTEMS

Complete high-rise modular systems make it easy to create that perfect shelving solution to maximize space in any facility.

Shelving Supported Mezzanines (Deck-over shelving)

Save space by going up instead of out! Maximize your warehouse efficiency by using it's full capacity wall-to-wall and floor-to-ceiling. By using our Hi-Tech, Rivetwell, Bulk Rack and H-Post shelving Systems, we are able to double and or even triple your usable square footage instantly.

Multi-level shelving (Cat Walk System)

Using pre-engineered components, we can create a customized multi-level shelving system to meet your specific needs at a fraction of the cost of constructing a conventional mezzanine.

Multiple Products for Multiple Applications

- ✓ High Bay Storage Systems
- ✓ Shelving Supported Pick Modules
- ✓ Shelving Supported Catwalk Systems
- ✓ Safety Guard Rail Systems

Hi-Tech shelving is a complete shelving line with the strength needed to handle most industrial applications and versatility for today's modern facilities. Every shelving unit is designed and engineered to meet the highest standards.

A full complement of accessories including full dividers, partial dividers, label holders, swinging doors, post splices for multilevel systems and foot plates are available to complete your system.

Hi Tech H-Post Shelving (Floor + 2 Catwalk System)

Welded Bulk Rack (2 Level Catwalk System)

Beaded Post / Angle Post (Floor + 2 Catwalk System)

SYSTEM LAYOUT INFORMATION

Standard Shelving with Hi-Tech Shelves

FOR "D" - SINGLE FACE ADD 3/16" TO NOMINAL SHELF DEPTH
FOR "D" - DOUBLE FACE ADD 3/8" TO NOMINAL SHELF DEPTH

H-Post Shelving with Hi-Tech Shelves

FOR "D1" - SINGLE FACE ADD 5/16" TO NOMINAL SHELF DEPTH
FOR "D1" - DOUBLE FACE CLOSED MODELS ADD 13/16" TO NOMINAL SHELF DEPTH
FOR "D1" - DOUBLE FACE OPEN MODELS ADD 29/32" TO NOMINAL SHELF DEPTH
NOTE: ACTUAL SHELF WIDTH IS 5/16" UNDER NOMINAL

NOTES:

1. Width of posts should be added to the nominal shelf width in any floor plan to determine the overall shelving width.
2. Check "D" and "D1" dimensions for depth/creepage.

UNIT LOAD CAPACITY INFORMATION - 1.92 SAFETY FACTOR

Before selecting type of post, consideration should be given to loads to be carried. Use the formula below to get unit load, then select post type from table.

$$(B-2) \times A = \text{Unit Load}$$

A = Shelf Load
(See note 2)

B = Shelves per unit
(includes top and bottom shelves)

WARNING:

- Use H-Posts for:
- High-rise applications
 - Pass-through applications regardless of load
 - High-density, multi-level applications

HI-TECH™ & H-POST SHELVING

TYPICAL SWAY BRACE INSTALLATIONS FOR SEISMIC ZONE NO. 0 & 1

Standard Shelving (Beaded Front Posts)
High-Density Shelving (H-Posts)

Use of Side Sway Braces
(Part No. 5344 – Standard Shelving)
(Part No. 5341–High-Density Shelving)

Use of Back Sway Braces (Part No. 5342) for both standard and high density shelving

- NOTES:**
- 1-When splicing posts for increased heights or for multi-level shelving, use the proper number of braces required for the height of the posts being added.
Example: a 10'-3" model increased another 10'-3" in height would require 4 sets of side sway braces and 4 sets of back braces.
 - 2-For additional bracing requirements in Seismic Zones No. 2, 3 and 4, consult the Hallowell Applications Engineering Department.

BULK RACK

FEATURES:

3 shelf levels per unit adjust on 3" centers

Welded uprights consist of 14 gauge channel bracing welded to H-Post vertical members

14 gauge steel step beams with 10 gauge brackets

14 gauge front-to-back formed angle bracing supports

UTILITY BIN SHELVING

Hallowell bin shelving is a great way to organize and manage your parts department. Easily configurable with your favorite bin size, color and style. Each shelving unit is complete with (4) posts, shelves, side and back sway bracing and hardware for easy assembly.

- Shelves adjust in 1" increments
- Many shelf combinations available - see chart below
- Easy assembly
- Sway Braces for added stability
- Durable powder coat finish
- Nut & bolt assembly

FEATURES:

Angle Post (Standard-Duty):

1-1/8" x 1-5/8", 16 gauge cold rolled steel corner post uprights, 4 per unit.

Shelves:

22 gauge cold rolled steel, Triple flanged, adjust 1" on center.

Sway Braces:

1" wide 14 ga. Steel braces are bolted together at center to form an "X". Ends are rounded and pierced for mounting to rear and side posts.

THE PERFECT TRAFFIC SOLUTION SECURITY • TRAFFIC CONTROL • PORTABILITY

- In Stock for shipment within 5 days of receipt of order
- Quick and easy installation. Install between two walls instantly without anchors to walls or floor
- Simplified, patented pressure lock system
- Floor anchors are not required but are available for special installations
- Compact, fold-up size and heavy duty swivel casters make moving and storage easy
- Plated finish
- Padlock hasp is standard
- Cylinder locks are available for additional security
- Two or more gates can be joined together for large expanse

Here's how the exclusive Superior® Pressure Lock System works:

1. Raise unit retainer channel to vertical position and secure
2. Extend gate until rubber bumpers touch both walls
3. Lower the male lock channel (with pin) until it rests on carriage channels within guides and locking bracket.
4. Lower female lock channel (with adjustment holes) until it rests within the male lock channel with pin. Pin need not engage a hole in female lock channel.
5. Raise both channels until pin engages the hole immediately to the right. Applying moderate pressure, push both channels down until they rest within guides and locking bracket. Lock in position.

Superior® Portable Gates are ideal for:

- Schools
- Shopping Malls
- Recreation Centers
- Factories
- Libraries
- Hospitals
- Office Buildings
- Financial Institutions
- Theaters
- Museums

SUPERIOR® PORTABLE GATES

**Five sizes to accommodate 3'-6" wide to 18'-0" wide conditions.
Connect multiple gates together for wider applications.**

GUARDRAIL

Hallowell guardrail is designed, engineered, and manufactured to the highest industry standards, using heavy gauge steel, and a unique integrated fastening system. This integrated system incorporates the fastening hardware as part of the column design so there will be no "stripped" out connections. A properly installed and anchored guardrail system is designed to safeguard people, property and facility assets from accidents involving material handling equipment.

Steel post cap snaps on providing a durable finished installation

10" x 10" x 1/2" Post Base Plate
Includes (4) LDT anchors

Each Hallowell Guardrail system is designed for your specific safety application. It is recommended to use 18" high for impact protection of facility assets including office in-plants, conveyor systems, mezzanines, shelving and racking systems. The use of the 42" double rail system is recommended when protecting and separating pedestrians and personnel from your material handling equipment. These areas include walkways, bathrooms, entry and exit points, electrical panels, break areas, and exposed work stations.

Guardrail components have an industry approved, safety-yellow powder-coated finish. All guardrail sections are shipped with the required fasteners and other necessary hardware to properly install and anchor into your concrete floor.

Lift-out rail adapter allows for access when needed

Grade 5 hex nuts are welded inside posts providing maximum bolt grip for superior installation

HALLOWELL POST PROTECTORS

Designed to protect your investment, Hallowell Post Protectors are fabricated of extra heavy-duty steel and are available in three heights to meet your specific requirements. Anchor plates are 1/4" steel that is welded to 3/8" formed steel uprights and finished in a bright safety-yellow powder coat.

AVAILABLE IN THREE HEIGHTS.

DURATOUGH™

DURATOUGH™ CABINETS

Classic Series cabinets are fabricated from prime grade cold rolled sheet steel.

Galvanite Series cabinets are fabricated from galvanized sheet steel which has a zinc-iron alloy coating that is applied at the mill providing protection against high-humidity and moist environments. This coating also prevents corrosion from spreading when the paint and/or coating is scratched away.

Heavy-Duty cabinets are fabricated from 16 gauge sheet steel and are fully-welded creating a rigid, durable unit.

Extra Heavy-Duty cabinets are fabricated from 14 gauge steel which is 25% thicker than 16 gauge providing **MAXIMUM** durability.

Safety-View® Series cabinets incorporate polycarbonate panels in both doors of our extra heavy-duty Classic Series cabinets allowing contents to be visible without compromising security.

Ventilated Series cabinets are fabricated to the same rugged standards as our extra heavy-duty Classic Series cabinets with the added benefit of being fully ventilated with diamond perforated doors and sides and a 13 gauge flattened expanded metal back.

STANDARD FEATURES FOR ALL DURATOUGH™ CLASSIC AND GALVANITE™ SERIES CABINETS

- All-welded construction
- Double door design
- Solid doors are reinforced with an 18 gauge full-height door stiffener providing a rigid torque-free door.
- 3-point turn handle locking using 3/8" diameter locking rods operated by a 3/16" gauge steel handle. Handle is painted to match cabinet.
- Heavy-duty 13 gauge 7-knuckle 3-1/2" butt hinges welded to door and securely riveted to frame.
 - Solid sides are formed to be integral with vertical door frame.
 - Top is formed to be integral with horizontal top door frame.
 - Bottom is formed to be integral with horizontal bottom door frame and includes double return bends at all four sides maximizing unit rigidity.
- Back is welded to cabinet top, bottom and sides
- Shelves are formed to provide maximum capacity and are adjustable on 3" centers. Shelves bolt to shelf support channels which are welded to sides.
 - 78" high storage cabinets include 4-adjustable shelves
 - 60" high storage cabinets include 3-adjustable shelves
 - 42" high storage cabinets include 2-adjustable shelves
 - 78" high combination cabinets include one full-width upper shelf, a center partition, 3 partial-width shelves and one partial-width coat rod
- Optional leg kits are available and can be bolted on to all DuraTough cabinets.
- Color: 738 Charcoal

CHARCOAL
(GL)

1-3/4" WORK SURFACES

Steel Top

Heavy 12 gauge steel with no holes on the work surface withstands hard shop use for years. Will not crack, splinter, gouge, or absorb oil.

Shop Top

Shop Top's layered high density particleboard offers superior screw holding characteristics. The top and bottom layers are seal to resist conventional spills. The non-conductive, splinter-proof top is 30 percent harder than maple.

Laminated Hardwood Top

Thoroughly seasoned, kiln dried hardwood, face-glued to provide an extremely durable, attractive and long lasting work surface.

Work Top Capacity:

200 lbs/sq ft evenly distributed over the entire surface.

Wire harness includes (a) duplex outlet an on/off switch with (b) wire management system and installation into leg knockouts

Caster kit include (a) swivel caster with brakes and (b) mounting plates

PRACTICAL, COMPACT AND DURABLE WORKBENCHES

Hallowell Workbenches are constructed of only the finest materials and represent the pinnacle in quality, strength, and stability. Our industrial workbenches are designed to withstand the harshest work environments year-in and year-out. With the flexible selection of standard and cost-effective components, these highly efficient units insure maximum productivity in the workplace.

Riser

Provides a 12" high x 10" deep shelf above the work surface

Drawer

24" deep x 18" wide x 6" high. Easily installs under the bench top and can be secured with an optional padlock

Back and End Stops A 3" high barrier with rounded front corners.

Lower shelf Full width 11-3/16" deep. (150 lbs capacity)

Stringer Required for lateral stability and acts like a stop for a second bottom shelf.

Adjustable Legs (Allow 6" of adjustability)

MODULAR UTILITY STORAGE AND WORKBENCH SYSTEM

THE PERFECT WORKSPACE SOLUTION

FORT KNOX MODULAR SYSTEM

By combining our adjustable Rivetwell Shelving, Heavy-Duty All-Welded Cabinets, Workbenches and Locker/Drawer units we created a uniquely functional, yet durable modular system.

Full Door
Cabinet

3 Drawer
Cabinet

6 Drawer
Cabinet

Extra Heavy-Duty
Storage Cabinet
(shown with optional drawers)

The Fort Knox Modular Utility Storage & Workbench System provides everything you need to create your own perfect workspace solution.

Fabricated from heavy gauge steel and coated with a unique textured two-tone powder coat finish, the Fort Knox system will stand up to the most demanding users.

Our intelligent design allows each major component to be utilized stand alone or in conjunction with any of the other major components.

FORT KNOX MODULAR SYSTEM

CUSTOM TEXTURED FINISH HAMMERTONE

Specially formulated with a unique hammer texture that is tough, highly durable and provides long lasting protection.

FORT KNOX SHELVING

Versatile quick assembly Rivetwell shelving provides heavy-duty storage while allowing four sided access by eliminating the need for anti-sway bracing. Four-sided beam design provides maximum decking capacity. Each unit includes 5 shelf levels including top and bottom and is available in choice of 36" and 48" wide units. Order additional levels as needed. The unique color combination of black uprights and red beams provides an attractive appearance and allows perfect integration into your custom configured system. We offer two decking choices. Order particle board or EZ-Deck steel decking for maximum capacity.

FORT KNOX SHELF OPTIONS

EZ-DECK

PARTICLE BOARD

If additional levels are needed for your setup, shelf levels can be ordered in each of the two available deckings to meet your specific requirements.

FORT KNOX CABINETS

**SHOWN WITH
OPTIONAL DRAWER
KIT**

Fabricated of extra heavy-duty 14 gauge steel, reinforced doors and 1,450 lb. capacity adjustable shelves, durability is an understatement. Best-in-class super-duty 13 gauge full height hinge and 3/16" ergonomically engineered cremone turn-handle insure proper door alignment and operation for a lifetime of use. Each cabinet includes 4 full-width shelves.

Doors are secured in the closed position with our high-security 3-point locking system which includes 3/8" diameter round locking rods that are held securely in place by welded-in pry-resistant retainers. These rods engage both the top and bottom of the cabinet door frame when the door is closed which the center latch rotates behind the slave door. Handle includes provisions for a padlock (locks not included).

Shelves are fully adjustable on 3" centers allowing you to maximize the cabinet's interior space. Cabinets are available in 36" and 48" widths and can accommodate our modular cabinet drawer units. With durable textured powder coat finish presented in an attractive two-tone color combining a black body with red door, you can be sure our system will be the highlight of your workspace environment.

FORT KNOX OPTIONAL DRAWER KITS

CHOOSE FROM 2 OR 3 DRAWER INSERTS

Each modular drawer unit is 15" high and is available in a 2-drawer or 3-drawer version. Drawers allow maximum weight bearing capacity by combining heavy 14 gauge construction with super-strength 500 lb. capacity full-extension glides. The full extension allows full use of each drawer.

Drawer units can be easily added to any Fort Knox and DuraTough All-Welded Cabinet allowing you to custom configure your cabinets to your specific needs.

Note: Drawer units should always be installed into the lower portion of the cabinets to insure stability when opening the drawers. Only one drawer should be opened at a time.

FORT KNOX MODULAR STORAGE SYSTEM COMPONENTS & FEATURES

FORT KNOX PEDESTAL UNITS

**3 DRAWER
PEDESTAL**

**6 DRAWER
PEDESTAL**

**DOUBLE DOOR
PEDESTAL**

Perfect as stand-alone units or as supports for workbenches. These versatile all-welded heavy-duty modules are available in multiple sizes and configurations and provide ample storage for tools.

Double Door Workbench Pedestals are perfect for storage of larger items. Our high security 3-point latching system is pad-lockable (locks not included).

Drawer Workbench Pedestals are engineered for years of smooth operation while the ergonomic handles add style. Full-extension drawer glides allow full use of drawer space. Available in both 6-drawer and 3-drawer models.

FORT KNOX WORKBENCH TOPS

WORKBENCH SHOP TOP

WORKBENCH LAMINATED HARDWOOD TOP

WORKBENCH STEEL TOP

Choose from rugged steel, laminated hardwood and composite core resin board workbench tops. Each is 1-3/4" thick and provides a perfect working surface.

FORT KNOX WORKBENCH ACCESSORIES

A - LIGHT KITS provide a convenient way to illuminate your work surface. Each light kit easily attaches to our steel pegboards allowing you to mount is where light is needed most.

B - STEEL PEGBOARD PANELS are engineered in three convenient sizes to fit perfectly into our Fort Knox System. Our unique design allows panels to be wall mounted or attached to the sides of our Fort Knox lockers and cabinets. Heavy-gauge design is perfect for industrial applications.

C - PEGBOARD SHELVES mount to the pegboard providing shelf space exactly where you need it. Available in three sizes.

D - ELECTRICAL POWER BAR provides additional power when needed. Available to match both 60" and 72" wide workbenches.

E - LOWER PEDESTAL SHELF mounts between two bench pedestals to provide out of the way storage. Available in three lengths to work with most pedestal configurations.

F - SIDE AND BACK RAIL KITS provide edging to your workbench surface to prevent items from sliding and/or rolling off. Perfect when workbenches and being used stand alone.

FORT KNOX LOCKERS/CABINETS

All-welded heavy-duty Fort Knox lockers are available in multiple sizes and configurations allowing maximum versatility. All doors include a stainless steel recessed handle with padlock hasp (locks not included).

FULL DOOR CABINET includes an upper fixed shelf with four adjustable stainless steel shelves.

COMBINATION CABINET include three stainless steel adjustable shelves with choice of 3 or 6 lower drawers. Drawers are interchangeable with our pedestal drawer units.

**CUSTOM TEXTURED FINISH
HAMMERTONE**

**1 YEAR
WARRANTY**

Specially formulated with a unique hammer texture that is tough, highly durable and provides long lasting protection.

PREMIUM ALL-PURPOSE WARDROBE LOCKERS

FEATURES:

BODY CONSTRUCTION: Knock-down, 24 gauge

BODY STYLES: Single, double and triple tier

DOOR: 16 gauge louvered for added ventilation

HINGES: Continuous piano type

HANDLE: Stainless steel recessed handle with multi-point gravity lift-type latching for a modern look and added safety. Recessed handle protects finish from being marred by padlock.

HOOKS: One double prong ceiling hook and two single hooks per single and double tier opening. One double prong ceiling hook for triple tier.

COAT ROD: Available for single tier at a nominal cost

SHELVES: Hat shelf is included in single tier lockers.

LEGS: 6" high legs are standard. Lockers without legs are available for a nominal charge.

APPEARANCE: All lockers include matching body colors. Order Finished End Panels for exposed row ends if desired. Finished End Panels install over top of universal side panels adding strength and rigidity at exposed row ends and can be ordered to match locker door/frame color.

2 YEAR WARRANTY

PIANO HINGE STANDARD

GENERAL FEATURES:

- Lockers can be ordered fully-assembled or knock-down for assembly at destination.
- Order 3-wide units for best value. Order 1-wide units to complete quantity needed for each continuous row.
- Lockers can be ordered in combination with Premium box lockers.
- All items shown are available for shipment within 5 business days of receipt of order.
- Aluminum number plates (#1-up) with mounting hardware are included. Number plate face is black with silver etched numerals. If a special numbering sequence is required, please specify when ordering. Number sequence must be consecutive numbers equal to the number of openings (doors) ordered.
- Locks are not included.

ANTIMICROBIAL PROTECTION

UPGRADED Antimicrobial Recessed Handle Finger Lift Cover

All gravity lift-type latching lockers that include recessed handles include our Antimicrobial Recessed Handle Finger Lift Cover for protection against the growth of molds and bacteria

Deep drawn stainless steel recessed handle with gravity lift-type latching for doors 20" high and higher

4-Wide Wall Mount Lockers

Six Tier, 3 wide,
18 openings
Light Gray

Single-point thru-the-door friction catch door pull designed for use with a padlock or built-in lock. Shown with optional strike plate which protects door from being marred by padlock and standard piano hinge.

Sixteen-Person Lockers

HALLOWELL PREMIUM BOX LOCKERS INCLUDE LOUVERED DOORS AND ARE PERFECT FOR STORING PERSONAL ITEMS.

FEATURES:

BODY CONSTRUCTION: Knock-down, 24 gauge

BODY STYLES: Four, five, six tier, 16 Person and wall mount

DOOR: 18 gauge, Louvered for added ventilation

HINGES: Continuous piano type

HANDLE: Single-point projecting friction catch door pull prepared for both padlock or built-in lock. No moving parts insures quiet maintenance-free operation.

HOOKS: None

COAT ROD: None, standard on the 16 person

SHELVES: None

LEGS: 6" high legs are standard. Lockers without legs are available for a nominal charge.

APPEARANCE: All lockers include matching body colors. Order Finished End Panels for exposed row ends if desired. Finished End Panels install over top of universal side panels adding strength and rigidity at exposed row ends and can be ordered to match locker door/frame color.

GENERAL FEATURES:

- Lockers can be ordered fully-assembled or knock-down for assembly at destination.
- Order 3-wide units for best value. Order 1-wide units to complete quantity needed for each continuous row.
- Lockers can be ordered in combination with Premium wardrobe lockers
- All items shown are available for shipment within 5 business days of receipt of order.
- Aluminum number plates (#1-up) with mounting hardware are included. Number plate face is black with silver etched numerals. If a special numbering sequence is required, please specify when ordering. Number sequence must be consecutive numbers equal to the number of openings (doors) ordered.
- Locks are not included.

UPGRADED Antimicrobial Box Door Finger Pulls

All box door finger pulls are made of a super tough nylon material which includes an Antimicrobial agent offering protection against the growth of molds and bacteria.

Slope Tops

Provide a more finished appearance and prevent items from being placed or stored on locker tops.

Padlocks

Are included for each door. 3-number combinations provide for maximum security. No need to go out and buy locks allowing immediate use of lockers upon arrival. Locks are master keyed.

Strike Plates

Aluminum plates are riveted to door to prevent padlocks from marring painted door finish on six tier lockers.

Closed Metal Base

Front and side bases close off area below lockers at 6" legs to prevent collection of debris.

UPGRADED Antimicrobial Recessed Handle Finger Lift Cover & Box Door Finger Pulls

Lift covers and finger pulls are made of a super tough nylon material which includes an Antimicrobial agent offering protection against the growth of molds and bacteria.

2 YEAR WARRANTY

PIANO HINGE STANDARD

WHEN STRENGTH AND VENTILATION MATTER

FEATURES:

BODY CONSTRUCTION: Knock-down, 16 gauge body with 18 gauge back. Sides are diamond perforated for maximum ventilation

BODY STYLES: Single, double and six tier

DOOR: 14 gauge, diamond perforated for maximum ventilation

HINGES: Continuous piano type

HANDLE (wardrobe): Stainless steel recessed handle with multi-point gravity lift-type latching. Recessed handle protects finish from being marred by padlock.

HANDLE (box): Box lockers include a projecting single-point friction catch door pull prepared for both padlock or built-in lock. No moving parts insures quiet maintenance-free operation.

HOOKS: One double prong ceiling hook and two single hooks per single and double tier opening. One double ceiling hook for triple tier.

COAT RODS: Available for single tier at a nominal cost

SHELVES: Hat shelf is included in single tier lockers.

LEGS: 6" high legs are standard. Lockers without legs are available for a nominal charge.

RECRUITER 2 WOOD SPORT LOCKERS

Get Your Team GAME READY!
Introducing our New Recruiter™
Set-Back QUICK-SHIP Design

Recruiter lockers are crafted of furniture grade red oak and finished using two coats of high grade cabinet lacquer. Red oak is naturally moisture and mildew resistant so you can be sure to benefit from your investment for years to come. Recruiter lockers are virtually unaffected by normal locker room conditions and are designed to stand up to daily use by today's athletes!

In addition to our standard stock designs and sizes, our engineers are readily available to assist you in custom designing a locker to meet your specific needs. Be it a fitness center, team locker room, country club or resort health spa, we stand behind our product with a full one year warranty that covers defects in materials and workmanship.

Galvanite™ Rust Resistant Lockers

Galvanite lockers are fabricated from prime galvanized (hot-dipped zinc coated, annealed) sheet steel, then finished with an electrostatically applied high grade powder coat finish providing double protection against corrosion.

FEATURES:

BODY CONSTRUCTION: 24 gauge, galvanized corrosion resistant sheet steel

BODY STYLES: Single, double, triple and six tier

DOOR: 16 gauge, galvanized corrosion resistant sheet steel louvered for added ventilation, 18 gauge for box doors

HINGES: Continuous piano type

HANDLE (wardrobe): Stainless steel recessed handle with multi-point gravity lift-type latching. Recessed handle protects finish from being marred by padlock.

HANDLE (box): Box lockers include a projecting single-point friction catch door pull prepared for both padlock or built-in lock. No moving parts insures quiet maintenance-free operation.

HOOKS: One double prong ceiling hook and two single hooks per single and double tier opening. One double ceiling hook for triple tier. No hooks for six tier lockers.

COAT RODS: Available for single tier at a nominal cost

SHELVES: Hat shelf is included in single tier lockers.

LEGS: 6" high legs are standard. Lockers without legs are available for a nominal charge.

UPGRADED Antimicrobial Recessed Handle Finger Lift Cover & Box Door Finger Pulls

Lift covers and finger pulls are made of a super tough nylon material which includes an Antimicrobial agent offering protection against the growth of molds and bacteria.

PIANO HINGE STANDARD

IDEAL FOR HIGH HUMIDITY AND CORROSION PRONE AREAS

GALVANITE™ CORROSION RESISTANT SHEET STEEL PREVENTS RUST AND CORROSION

Galvanite™, is List Industries' trade marked name for lockers and cabinets manufactured with galvanized sheet steel components and finished with an electrostatically applied high-grade powder coat finish. Galvanneal and powder coat offer exceptional double protection against corrosion, even under the most adverse conditions. Tests indicate that galvanneal increases the estimated life-cycle threefold.

Galvanite™ cold rolled sheet steel with our powder coat finish after a 336 hour salt spray test.

Ideal for use in high humidity areas, outdoor locations, near shower or pool areas and food industry facilities.

WHAT IS GALVANNEAL?

Galvanneal is the result of the combined processes of galvanizing (hot-dipped zinc coating) and annealing (heat treatment). Galvanneal does not flake when formed or stamped. The very fine matte finish acts like a primer that easily adheres to paint.

Common cold rolled sheet steel after a 336 hour salt spray test.

Galvanite sheet steel can be ordered on any Production locker or cabinet as an option

These characteristics make galvanized sheet steel ideal for steel lockers in high humidity, corrosion prone areas.

Triple Tier, 1 wide, 3 openings

AQUAMAX
HDPE PLASTIC LOCKERS

Aquamax Solid Plastic Lockers are Ideal for applications where high humidity, moisture and water are present. Plastic lockers are fabricated from solid high density polyethylene panels (HDPE) for maximum strength and durability while providing corrosion resistance to most common chemicals.

FEATURES:

BODY CONSTRUCTION: Corrosion Proof High Density Polyethylene (HDPE), with 3/8" thick body panels

BODY STYLES: Single, double, triple, six tier and z-tier

HINGES: heavy-duty continuous full height extruded aluminum with a powder-coat finish to match color of door

HANDLE (Wardrobe): Projecting solid plastic handle with lift-type latching

HANDLE (Box): Single-point thru-the-door padlock hasp with projecting door pull

SHELVES: Hat shelf is included in single tier lockers

HOOKS: 2 single-prong hooks in single and double tier lockers

ADVANTAGES:

- Scratch Resistant
- Corrosion Resistant
- Mildew and odor resistant
- Graffiti resistant
- Impact and dent resistant
- Easy to clean
- Chemical Resistant

ANTIMICROBIAL & CORROSION RESISTANT PLASTIC LOCKERS

MedSafe AquaMax lockers are manufactured with high density polyethylene (HDPE) that contains a specially formulated ANTIMICROBIAL agent that permanently resists the growth of bacteria, mold, yeast and mildew. This special feature combined with all the great features of our AquaMax lockers make these lockers ideal for use in medical, educational, retail and manufacturing environments.

FEATURES:

BODY CONSTRUCTION: Corrosion Proof High Density Polyethylene (HDPE), with 3/8" thick body panels

BODY STYLES: Single, double, triple, six tier and z-tier

HINGES: heavy-duty continuous full height extruded aluminum with a powder-coat finish to match color of door

HANDLE (Wardrobe): Projecting solid plastic handle with lift-type latching

HANDLE (Box): Single-point thru-the-door projecting friction catch door pull with padlock hasp

SHELVES: Hat shelf is included in single tier lockers

HOOKS: 2 single-prong hooks in single and double tier lockers

ADVANTAGES:

- Permanent antimicrobial protection - kills microbes (yeast, bacteria, mold, mildew)
- Scratch Resistant
- Corrosion Resistant
- Impact and dent resistant
- Easy to clean
- Mildew and odor resistant
- Graffiti resistant (pencil, pen, paint and most common markers)
- Chemical Resistant

DARK GRAY (HG)

Easy Custom Installations

Hallowell® Bulk Storage Lockers' unique construction provides for a simple, easy way of handling interference from overhead pipes and/or ducts.

SHOWING CUT OUT (WITH REPAIR ANGLES) TO ALLOW FOR INTERFERING DUCT.

VIEW OF PIPE THROUGH TRANSOM (OR DIVIDER) WITH REPAIR ANGLE.

REPAIR ANGLES

Repair Angle 16 gauge 36" long repair angle is pre-punched on 2" centers to "heal" cuts in dividers or transom. Two bolts and clips are included with each angle.

RED denotes stock sizes. Custom sizes are also available.

Tops are recommended for situations where the ceiling height is 8'-6" or more when using standard 7'-6" high component modules.

Shelves are used as dividers between top and bottom openings of double tier lockers. May also be used in single tier lockers for additional floor space and may be shorter than depth of locker to provide space for long items.

Backs are required for back-to-back installations or where a single row is set away from a wall.

Bottoms are recommended for use on all single or double tier lockers if dampness prevails.

UNITS AVAILABLE RIGHT-HAND OR LEFT-HAND HINGED

- **SINGLE TIER:**
 - OVERALL HEIGHT 90"
 - OPENING HEIGHT: 75-1/2"
- **DOUBLE TIER:**
 - OVERALL HEIGHT 90"
 - UPPER OPENING HEIGHT: 31-1/2"
 - LOWER OPENING HEIGHT: 42"

Note: In the interest of safety, all lockers must be securely anchored to the floor and/or wall.

FEATURES

BODY CONSTRUCTION: Unibody all-welded 16 gauge steel construction, backs are 18 gauge, bottom is galvaneal sheet steel for maximum corrosion resistance, hemmed and beaded edges are safe to the touch

BODY STYLES: Open design, 4 body styles

SHELVES: 16 gauge welded to body for added rigidity with a beaded leading edge for added safety

NOTES: Easily secures to wall and floor for added safety, Low installation costs, reduced installation time, low maintenance, low life-cycle cost, lifetime warranty, insect and termite proof. All welded cubbies will ship in multiple column units up to 60" wide to meet individual job site conditions.

ALL-WELDED SCHOOL CUBBIES

OpenGear™

THE PERFECT GEAR LOCKER

These lockers feature our unique Unibody Design which provides unsurpassed strength and durability.

HSL-00 Open Front Gear Lockers

Our complete line-up of open-front gear lockers are specifically engineered for High School, Collegiate and Professional team organizations who demand high performance equipment storage solutions.

The all-welded Open Front Gear lockers are designed to accommodate a wide variety of equipment and apparel while allowing maximum ventilation.

The base model includes one upper hat shelf with a compliment of coat hooks. You can add a choice from three upper security compartments for personal storage: a small wallet security box, a 12" wide side hinged security box or the full width top hinged security compartment.

In the lower area, you can add a shelf/seat or opt for the foot locker/seat for a lockable equipment storage area. You can finish off your sport locker with our optional stainless steel coat rod.

Open Front Gear lockers feature our all-welded Unibody design which provides two front frame channels between sides of multiple column units and integral sides which are diamond perforated for ventilation.

BASE MODEL OFFERS UPPER HAT SHELF AND COAT HOOKS

2 YEAR WARRANTY

ANTIMICROBIAL UPGRADED Antimicrobial Recessed Handle Finger Lift Cover

All gravity lift-type latching lockers that include recessed handles include our Antimicrobial Recessed Handle Finger Lift Cover for protection against the growth of molds and bacteria

SPECIFICATIONS

- 1 **6" Closed Front Base (KD lockers only):** Shall be fabricated of 16 gauge cold rolled sheet steel flanged on all four sides for rigidity. Front bases include projecting tabs on side flanges designed to align with holes in front legs allowing front bases to be snapped into place requiring no additional fasteners. Side bases are to be included at all exposed ends and are bolted to front and rear legs. Finish to match lockers. Available Quick-Ship from stock in 5 standard colors.
- 2 **4" Continuous Z-Base (KD lockers only):** Shall be fabricated from 16 gauge cold rolled sheet steel fabricated in 72" lengths, flanged at the top to form a 1-3/8" toe space and at the bottom allowing concealed fastening to the finished floor. Continuous Front Bases include holes for use with splice plates where bases are joined end-to-end. End Bases are to be included at all exposed ends. Where additional support is desired, End Bases may be substituted for splices at Continuous Front Base joints. Finish to match lockers. Available Quick-Ship from stock in 5 standard colors.
- 3 **20 gauge Individual Slope Top (KD lockers only):** Not less than 20 gauge cold rolled sheet steel, 18 degree pitch, fabricated to be installed individually over each locker. Slope top is formed to include a full back. Individual Slope Tops are to be installed in addition to the locker flat top. End closures are to be provided at exposed ends. Finish to match lockers. Available Quick-Ship from stock in 5 standard colors.
- 4 **18 gauge Continuous Slope Top:** Not less than 18 gauge cold rolled sheet steel, 18 degree pitch, in 72" lengths. A splice cover with concealed spring clip is to be used to cover joints where Continuous Slope Tops are joined end-to-end. To be installed in addition to the locker flat top with end closures for support. Finish to match lockers. Available Quick-Ship from stock in 5 standard colors.
- 4 **16 Gauge Continuous Slope Top:** Not less than 16 gauge cold rolled sheet steel, 18 degree pitch, in 72" lengths. A splice cover with concealed spring clip is to be used to cover joints where Continuous Slope Tops are joined end-to-end. To be installed in addition to the locker flat top with end closures for support. Finish to match lockers.
- 5 **Recessed Trim:** Fabricated of 16 gauge cold rolled sheet steel. 3" wide side trim shall be notched at the top and include a retainer to allow the 3" wide top trim to fit snugly into the side trim. Recess trim is designed to be used when the lockers are installed with the locker fronts flush with the top and side walls. The top and side trim will project 3/8" beyond the side and top walls and include return bends back to the walls. Finish to match lockers. Available Quick-Ship from stock in 5 standard colors.
- 6 **Minimum Punched End Panel (KD lockers only):** Shall be from 18 gauge cold rolled steel and formed to fit tightly over the universal side panel at exposed row ends. Holes are provided at perimeter for fastening to locker. Minimum Punched End Panels are designed to cover all fasteners other than those at the perimeter of the panel. Finish to match lockers. Provide at all exposed ends. Available Quick-Ship from stock in 5 standard colors.
- 7 **Boxed End Panel:** Shall be "Boxed" type formed from 16 gauge cold rolled steel with 1" O.D. double bends on sides and a single bend at top and bottom with no exposed holes or bolts. If lockers have slope tops, end panels must be formed with slope at top to cover the ends of the slope tops. Finish to match lockers. Provide at all exposed ends.
- 8 **Fillers:** Provide where indicated, of not less than 16 gauge cold rolled sheet steel, factory fabricated to and finished to match lockers. Available Quick-Ship from stock in 5 standard colors.

Note: visit our website at www.Hallowell-List.com for complete installation details and instructions.
